The constantly changing environment for permissible and essential travel is challenging to navigate. Learn proven ways to keep the immune system in top shape to help you perform at your best.

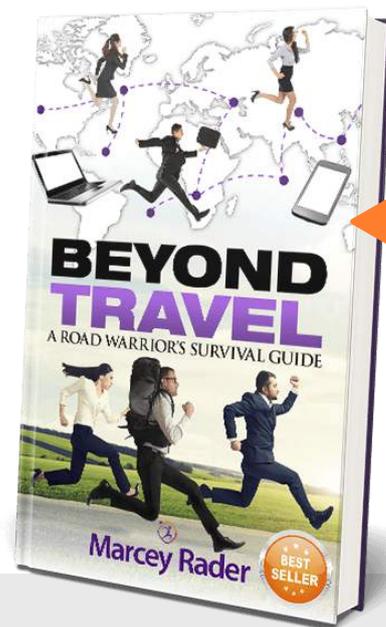

Travel doesn't have to be an excuse for poor health.

Outstanding! Very engaging, entertaining, and well-polished presentation that made people laugh. It kept the topic lighthearted but also emphasized the eventual repercussions if people don't change their bad travel habits. I highly recommend this to ANY company that wants to improve the health and reduce the stress of their road warriors.

RING, PING, BUZZ, KNOCK

PAY ATTENTION WITH INTENTION.

Are you putting out fires, reaching for the easy stuff, and wondering where your time goes? Are you distracted during moments with your family and friends that leave you half-way present?

There is a constant struggle of being present when there are computers, phones, and watches vying for our attention. Our ability to concentrate has decreased, and we are captive to our devices. Our performance weakens, and we can't devote the brainpower to give our best work. Relationships pay the price when we lose the power to listen. Be in the moment. Take control of distractions.

“

I've been chewing on the things I heard a lot since the webinar. I shared some of the tips with my high-schooler when she confessed to me last night that she's already feeling anxious about school starting in the fall. It was a good conversation starter. Thank you for your passion!
